

Annexure 3

(To Regional Oil and Chemical Pollution Contingency Plan for South Asia)

DIRECTORY OF RESPONSE PERSONNEL AND INVENTORY OF RESPONSE EQUIPMENT AVAILABLE TO OTHER PARTIES

The listing of personnel, equipment or other means of response here does not mean that it can always be made available. Availability depends on the circumstances of the spill, the current employment of the personnel or state of the equipment, and other demands that might be placed on them. The precise details of assistance to be made available in any incident will be a matter for discussion between the requesting party and the assisting party.

Note: each Member State to the Regional Plan should produce a section of this annex listing the personnel and equipment that it could make available to the other Member States on request under the terms of the Plan. The form of the annex shown here does not need to be followed precisely, provided sufficient information is shown to guide the Lead Country to make sensible requests for assistance. The cost information, however, is important: it should be shown here, preferably expressed in \$US. Exceptionally the annex could indicate that cost information would be made available on request during an incident. Assistance should neither be requested nor provided unless its cost was agreed by the two Member States concerned beforehand.
