

PROBLEM PACKS

Most goods are packaged today even if they do not need any packaging

ACT NOW

- Don't buy goods which have unnecessary packaging.
- Carry your own shopping bag instead of asking for a plastic bag every time.
- Have bottled drinks rather than those in tetrapacks.
- Avoid packaging waste by buying large economy packs — and save money too.
- Returnable bottles are eco-friendly.
- Where biodegradable refill packs are available, buy these.
