WORLD WETLANDS DAY 2016

Wetlands for our Future: Sustainable Livelihoods is the theme for World Wetlands Day in 2016. This theme is selected to demonstrate the vital role of wetlands for the future of humanity and specifically their relevance towards achieving the new Sustainable Development Goals.

World Wetlands Day is celebrated every year on 2 February. This day marks the date of the adoption of the Convention on Wetlands on 2 February 1971, in the Iranian city of Ramsar on the shores of the Caspian Sea. Since 1997, the Ramsar Secretariat provides outreach materials to help raise public awareness about the importance and value of wetlands. [Click here.](#)

Since its inception, the production and distribution of materials for World Wetlands Day have been financially supported by the Evian Project funded by the Danone Group.
